

## Fun ways to learn: *Horoscopes*

Be creative. Look through different parts of the newspaper (in-print or online) for stories, features and images that spark an interest in your child and use that interest to have some fun. Here's an easy tip to help you have fun while you're helping your child learn:

Have your child read his horoscope from the newspaper. Ask them if it might be true. Take turns reading other family members' horoscopes. Explain to your child that these are written to entertain us, and not really predictions of the future.
